MINCHLLANEOUS

William Murphy, at Edgewood, near Pittsburg, Pa., shot his divorced wife,

Texas people claim that their State will produce the largest wool crop of the country this year.

The Secretary of War has prohibited West Point. The order has created great dissatisfaction, as four-fifths of the cadets are tobacco users.

The Emperor William is reported ill. He is 84 years of age, and even his iron constitution must yield somewhat to the assaults of time. He has recovered from serious attacks more than once already, however, and may do so again.

Frank Winkler, a coal miner at Canton, Ohio, has just learned that he, with five brothers and sisters, has fallen heir to \$40,000,000, by the death of a brother, who made this immense amount of money as a diamond merchant at Cape of Good Hope.

An incredible story: Two young men, unmarried, and having some money to squander, promised to give a Ladies' Sewing Circle in Frankfort, Ky., \$10 if its members would keep absolute silence at its meeting for the space of one hour. The ladies took ten minutes to express, altogether, their opinions of these young men, and then resolutely set to work and actually won the money.

A shooting affray recently occurred amongst some theatre men at Joplin, Mo., in which C. L. Thompson and Thos. Carney were killed, and a colored man named Frank Woolard was Carney shot severely wounded. Thompson and Woolard, and J. Percora shot Carney.

The output of the Leadville mines for May was the largest for any one month in the history of the camp. Smelter output, \$120,068; mill output, \$110,000; raw ore output, \$125,000; total, \$1,355,068-an increase over April of \$399,308.

At Springfield, Ill., Dwight Kidder shot and killed his half-brother, C. D. Kidder. A family quarrel.

Dr. Talmage's opinion of the amendhead, in our opinion. The following is reported as the style in which the reverend gentleman recently alluded

Dr. Talmage declares it "will multiply infidelity," and pronounces the revision a literary botch. It will never be adopted in this country if the fearless criticisms of the people speaks out their mind. "I reject this reversion, because of its mechanical failure; because the verses and heading have been abandoned. Here is a paragraph a column and a half long, in the mid-dle of which are buried the words: "Jesus wept," instead of standing out in solitude with all their grandeur, pathos, tenderness, and omnipotent meaning. I reject the new revision because of its amazing trivialty. You remember Christ's sermon, where he speaks of putting new wine into old bottles. The new version substitutes the word 'skins,' as if they could not explain bottles as well as skins. [Laughter]. "Show me a penny," said Christ, The revisors say: "Show me a denarius," [Laughter], The old style was too much for the delicacy of our American party of the New Testament Company where it says, "For he was naked." The American committee chose that it should read, "had on his undergarment only." [Laughter.] The new version shook the faith of a great multitude in the Bible, and gave color to the attacks of infidelity." He deplored the circulation of the statements that there are forty errors in the King James version of the Sermon on the Mount and 150,000 errors in the New Testament. He believed the version would make more infidels than the thirty-eight revisers could reclaim in the 969 years of Methuselah and half a dozen other Biblical patriarchs of great age combined. Since it was claimed that the mistakes corrected were not important, he could not see he necessity for correcting them. 'Hands off the Work of God; remember the fate of Uzziah.' Mr. Talmage said, "If the revision should be reviewed there would soon be a Baptist re-"until possibly," he said, "I shall issue a revision."

"There is an 'artist' physician in New York, whose specialty is extracting the red bloom from topers' noses and making them of a virgin white-ness. Here in Omaha we would need an "artist" dentist. In order to extract the noses.—Omaha Republican.

It would do no good to extract the bloom for they would color it again in haste, and if the noses were extracted they would paint the excavations.

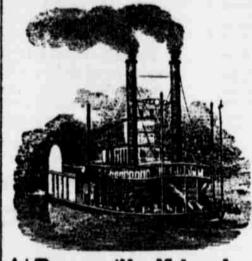

Mr. Conkling now realizes the illtated slip he took in resigning and hrowing the senate over to the Demoeratic party.—Crete Standard.

We do not indorse the withdrawal For the week ending Tuesday, the grain turgo shipments by lake from Senate; but the truth is, and it is but fair thicago were 3,241,000 bushels, mostly to say so, that Messrs. Conkling and Platt did not turn the Senate over to the Democratic party any more than did and then fired a bullet into his own Blaine or Windom or Kirkwood when head. It is expected the lady will rethey posigned to take seats in the cabinet. In New York a republican legislature was in session and if they do not fill the seats of those ex-Senators with Republicans it will be their fault the use of tobacco by the cadets at and not the fault of the resigning Sen-

The St. Paul Pioneer-Press (anti-Conkling) says of the president: "He has not pleased either party, and he has an awkward fight on his hands, for which he is not personally responsible, and which he studied carefully to avoid. If he had ignored the claims of both This is worth trying: Take half a factions, and filled the offices with the teaspoonful of black pepper in powder, one teaspoonful of brown sugar, and to their friends, he would have pleased one teaspoonful of cream. Mix them the factional leaders just as well, and well together and place them in a room on a plate where flies are troublesome and they will very soon disappear.

avoided a fight. It is good for him, however, to have learned this lesson early in his term, if he only takes it to heart."

A Lecture on the Nature. Treatment, A Lecture on the Nature. Treatment, and radical cure of Seminal Weakness, or Spermatorthoes, induced by self-abuse, Involuntary Emissions, Impotency. Ner of the interest of the industriance generally: Consumption, Epilepsy and File; Mental add Physical Incapacity, etc.,—By Robert J. (ulverwell, M. D., author of the "Green Book," etc.

The world-renewsed author, in this admirable Lecture, clearly proves from his own experience, that the awful consequences of self-abuse may be effortually removed without dangerous surgical operations, bougles, instruments, rogs, or cordisks; pointing out a mode of cure at once certain, and effectual by which every sufferer, no matter what his condition may be, may cure himself privately, cheaply and radically. This lecture will prove a boon to thousands and thousands.

Unsolicited testimony to the Efficacy of

Prof. Harris' Seminal Pastilles, taken
from Letters received from Patrons:

Indiana. April 18th, 1879.—The remedy is working perfectly. Had epitepsy from weakness, for eight years past.

Chicago, Aug. 14, 1879.—I am thoroughly dured and feel tip top. The young man in the country is getting better.

Missouri. Sept. 18, 1879.—I received so much benefit from the use of your remedies that I want to try them in another case. This is of leng standing, and will need something very strong. Mich., Jan. 28, 1879.—I have used up your package of medicine; send me another as soon as possible. That package stopped all apparent trouble, but there is a weakness yet, and I wish you would prepare this tof for the cure of that.

Sows. Oct. 10th, 1879.—I am simusif surprised at your Pase filles. They have worked like a charm on me. I am just twice as much of a man as I was before taking. I was on the verge of the grave, I thought, and there was no cure for me, but now I am in good hopes of a cure.

West Virginia, Aug. 28, 1879.—I received your medicine, and

west Virginia, Aug. 28, 1879.—I received your medicine, and I believe it has cured me, for which I am very thankful. Included please find \$5, for which please send me smother box (No. 2) for a friend. You have done a great thing for me. I will send you all the orders I can.
